SPEAKER CONFLICT OF INTEREST POLICY

HEALTHFEST
Showing Others
Healthy Options
SOUTHWEST
DALLAS, TX
APRIL 26 - 28, 2024

It is the goal of SENPA to ensure balance, independence, objectivity, and scientific honesty in all its education programs. All speakers and presenters participating in any SENPA sponsored programs are required to disclose to the program audience any actual or potential conflict(s) of interest that may have a bearing on the subject matter of the education program. A conflict of interest is a situation in which the presentation of a speaker may be influenced by current or anticipated financial gain as a result of a personal financial relationship with food, drug or device manufacturers, or other individuals or entities whose products or services are related to the subject matter of the program.

This policy is not intended to prevent a speaker with a potential conflict of interest from making a presentation. It is intended to openly identify any potential conflict so that listeners may form their own judgments about the value and validity of the presentation with full disclosure of the relevant facts. It remains for the audience to determine whether a speaker's other interests may reflect a possible bias in either the information or the conclusions presented.

REQUIRED DISCLOSURES

Each participant in a SENPA sponsored education program shall make disclosure if, within the previous three years, that individual or an immediate family member has had a personal financial relationship with a commercial or other party related directly or indirectly to the subject matter of the individual's presentation. Such a relationship constitutes an actual or potential conflict of interest which must be disclosed.

For the purpose of the above, **"education programs"** include all aspects of the SENPA Annual Meeting, including scientific papers, symposia, workshops, seminars, instructional and continuing education courses, and any other SENPA sponsored education or informal activities and publications. An individual's **"immediate family member"** includes the individual's spouse, life partner, child, parent or sibling. A **"personal financial relationship"** includes current or expected receipt of salaries, ownerships, equity positions, stock options, royalties, consulting fees or honoraria, material research support, and other financial arrangements. Any question as to whether a personal financial relationship exists should be submitted to, and will be resolved at the discretion of, the SENPA SOHO Events Committee.

Failure to comply with this disclosure requirement may result in a disqualification from participation in all future SENPA sponsored programs.

PROCEDURES

Each participant in a SENPA sponsored education event shall complete and sign the back of this Declaration form and submit it with his or her application or agreement to participate. A declaration must be submitted for every program the participant wishes to participate in, e.g., for each SENPA Annual Meeting. If the participant's situation changes during the period of time between the submission of a Declaration and the program, so as to render the Declaration incorrect or incomplete, the participant must submit a revised Declaration. The disclosed information may be published in program materials and must be announced to the audience by the individual participant prior to commencement of his or her presentation.
