How to Identify Quality Medicinal Mushroom Supplements**  
Sponsored by Wholesun Wellness

*Jme Bonfiglio*

Saturday, April 27, 2024, 10:50am-11:50am – Val Verde Room

In the largely unregulated industry of mushroom supplements, how can consumers accurately identify high-quality and effective products? Join Jme Bonfiglio to discuss the current standards of the mushroom supplement industry and how her company, WholeSun Wellness, is challenging those standards. You will also learn how to understand mushroom supplement product labels and why growing, processing, and testing are crucial to quality medicinal mushrooms. Jme will also go over health benefits for whole body support of medicinal mushrooms.

**Speaker Bio:** Jme Bonfiglio, the founder of WholeSun Wellness, believes in the power of mushrooms after decades of personal and professional experience. She has pioneered new ways of growing, processing, and testing mushrooms and is building the largest vertically-integrated medicinal mushroom operation in North America.

Jme's passion extends beyond mycology. A fervent advocate for women's role in the field, she actively works to empower women in mycology globally. As a prominent speaker at international conferences and festivals, and the organizer of the Utah Fungi Festival, she's a leading figure in the community. Through WholeSun Wellness, she also facilitates access to medicinal mushroom extracts for those facing health challenges, significantly impacting complementary medicine.

Jme's commitment to the environment is evident in her support for research into fungi-based solutions, like bio-degrading plastics and sustainable building materials.

## Cardiovascular Health, Blood Cleansing, Immune Malfunction & Systemic Enzymes

Lunch Sponsored by Arthur Andrew Medical

*Dan Curtin*

Saturday, April 27, 2024, 12:00pm-2:00pm – Val Verde Room

The world has witnessed an unprecedented surge in immune and cardiovascular events since 2021, not only affecting older adults but people of all ages. This shift has brought these health issues to the forefront, underscoring the need for effective and natural health strategies. Join me in a compelling seminar where we'll delve into the remarkable world of vegetarian systemic enzymes, with a special focus on nattokinase and serrapeptase. These enzymes, considered niche in the past, have now become a mainstream necessity for anyone seeking to safeguard his or her health.

**Speaker Bio:** Hi, I'm Danny Curtin. I've been in the natural supplement and personal health industries for over 2 decades as a fitness instructor, health coach, dietary supplement educator, formulator, and sales executive. I earned a degree in Health & Exercise Science and I'm a Certified Dietary Supplement Professional. After recommending and eventually witnessing the beneficial impact of systemic enzymes on my clientele, I became highly interested in pursuing another path where I could spread the word about these amazing and natural ingredients.

## The Plant Based Advantage to Peak Performance

### Breakfast Sponsored by Bluebonnet

*Carl Germano*

Sunday, April 28, 2024, 7:30am-9:30am – Val Verde Room

For a healthy lifestyle to become a reality, plant-based nutrition can play a crucial role in achieving that goal without the drawbacks of animal-based options. Choosing plant-based products is a conscious step towards a healthier and more environmentally friendly life, as they promote health and well-being, promote sustainable practices, and are an integral part of the sustainable food movement. For those leading active lifestyles, using plant-based ingredients offers numerous advantages beyond just the basics. Whether you're an athlete, fitness enthusiast, or simply someone who values physical activity, plant and non-animal-derived nutrients can play major roles in providing sustainable energy, building and maintaining muscle, enhancing recovery, reducing inflammation to stay pain-free, and contributing to long-term health. In this presentation, you will learn about several plant-based and non-animal-based nutraceuticals that can provide a natural and sustainable path to enhancing athletic outcomes, regardless of whether it's for an individual seeking to improve their fitness level or an active athlete seeking to enhance their sport-specific strength, power, conditioning or recovery for peak performance.

**Speaker Bio:** Carl Germano, CNS, CDN is a NY Board Certified Clinical Nutritionist, master's degree in clinical nutrition from New York University, and Vice President of Verdant Oasis. In addition, he has 4 decades of product development/education experience with many companies in the trade including Solgar, Country Life, Bluebonnet, Ajinomoto, Inergetics, Nutratch, and others. Today, his efforts are focused on providing the dietary supplement industry with the next generation of clinically important hemp based phytocannabinoid ingredients. A prolific author with several bestselling trade books including his most recent "Road To Ananda: The Simple Guide To The Endocannabinoid System, Phytocannabinoids & Your Health".
